We are a non-partisan group of like-minded citizens who are deeply concerned about the decline of America.

Many of our rights have been greatly infringed upon by our current federal, state and local governments' policies. We support our Constitution as envisioned by its authors and we feel that adhering to the Constitution is the best hope for regenerating America. We seek to foster opportunities to learn, teach and share its precepts with others and in so doing empower Americans to reclaim the unalienable rights and freedoms given to all people by our Creator.

We actively encourage elected and appointed officials at all levels (and offices) of government to honor their oath to preserve, protect and defend the Constitution of the United States of America.
